AFTERBURNER BOOST

AFTERBURNER BOOST

BOOST is an Organic Plant Food and Soil Conditioner which improves soil structure and porosity, creating a better plant root environment.

BOOST provides humus that assists in soil aggregation.

BOOST increases moisture infiltration by reducing the bulk density of heavy soils.

BOOST improves the moisture holding capacity of light soils improving moisture retention.

BOOST Supplies Organic matter to the soil aiding in the proliferation of soil microorganisms.

BOOST encourages root growth.

Directions for use:

IMPORTANT : Wear gardening gloves when handling this product.

Boost Your outdoor garden plots by spreading 3 to 4 inches of **Boost** over the area then till or mix into top 2 to 6 inches of soil. Plant and care for seeds or plants according to seed package instructions.

Boost Mix for Potted Plants: mix one part **Boost** with two parts soil, fill pot about 1/3 full with mix, transplant root ball & plant, fill remaining pot area with mix, water and let drain.

Boost Lawn Starter Mulch: For new lawns prepare the soil surface and plant grass seed according to package instructions, spread a thin layer, about 1/2 inch, over seeded soil and water according to seed package instructions.

Boost flower bed & plant mulch: place a generous amount on surface around plants moisten the surface of the mulch with a fine spray mist of water. Keep surface moist with fine spray as needed.
